About Us

The Arab Innovation Network (AIN), a UK-registered charity since 2012, bridges the gap between education and industry to connect emerging talent with real-world opportunities.

We empower students and young professionals with the skills and experience needed to excel in a competitive job market.

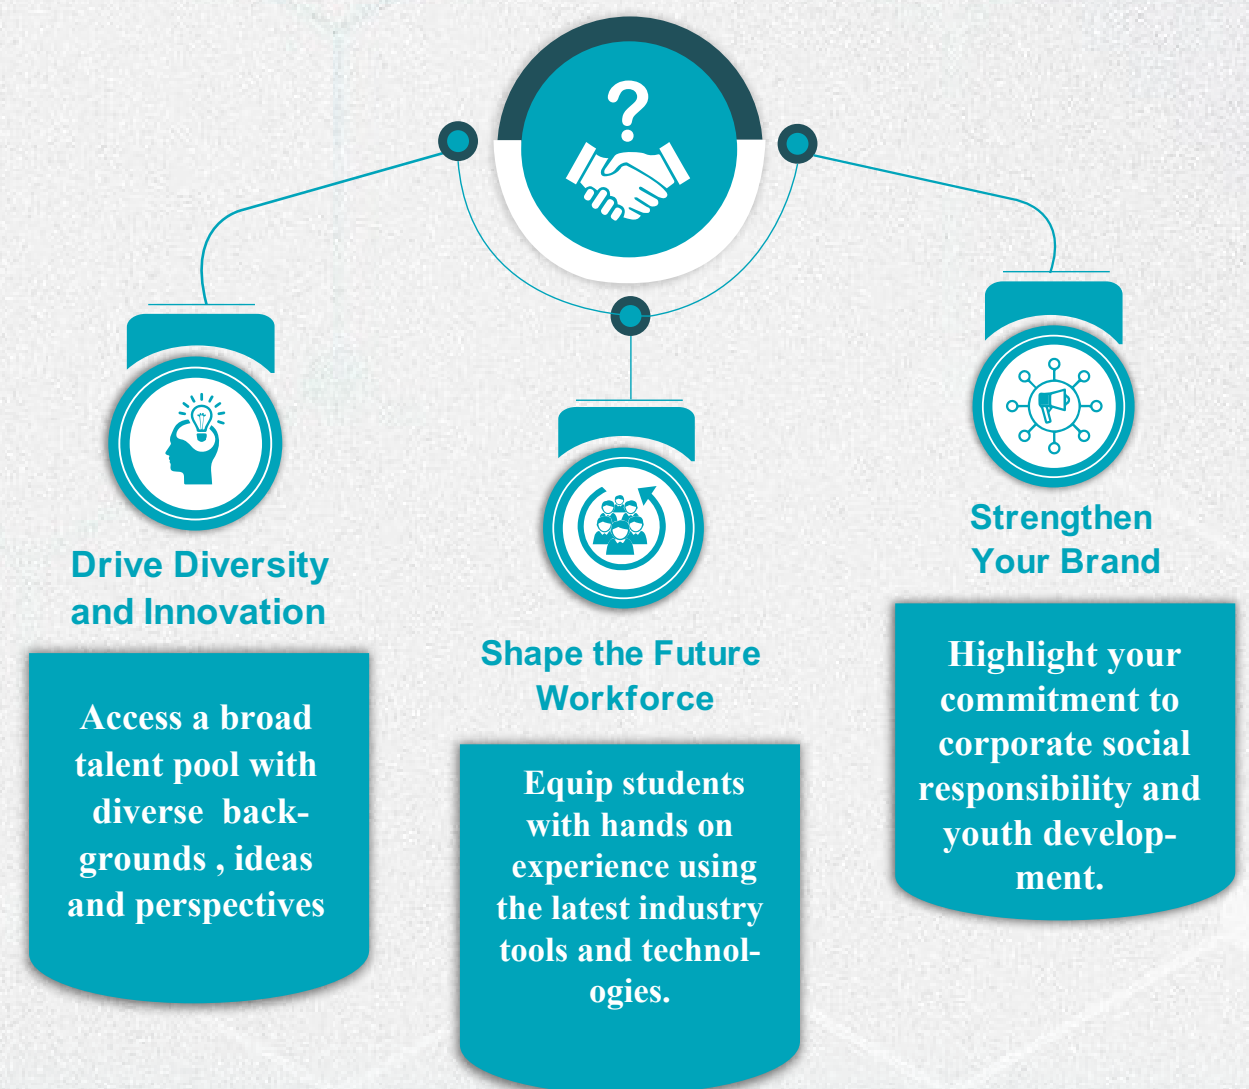

By partnering with us, your organization can directly impact future leaders while accessing top global talent. Our initiatives focus on advancing Environment, Engineering, Life Sciences, Technology, and Health-care—driving innovation and growth across these critical sectors.

Let's build the future, together.

The Opportunity Why Partner with Us?

Becoming a sponsor/partner gives you direct access to a diverse pool of top-tier global talent, enabling your company to stay ahead in an ever-evolving marketplace.

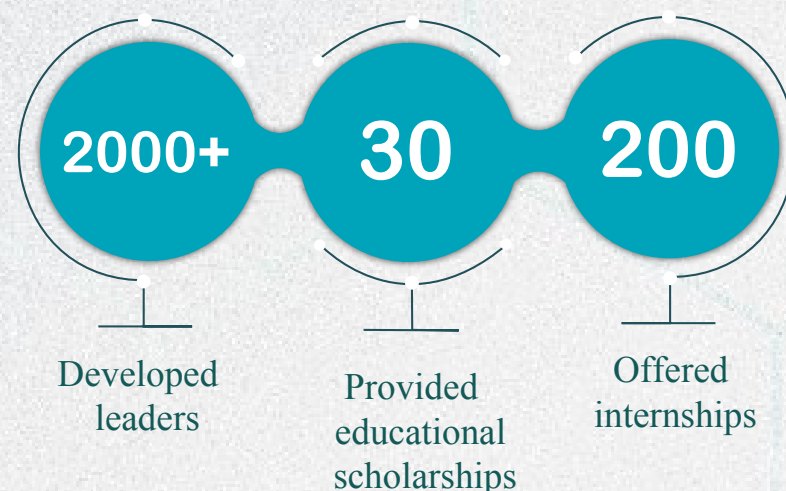

Secondly, transitioning from academia to industry can be challenging for many students and young professionals, often due to limited practical experience and professional networks. By partnering with AIN, your organization can:

Our Impact is Your Impact

Join us in developing 10,000 leaders by 2030!

With access to thousands of students across the Arab world and beyond, we've already:

Our Key Programs and Events:

- **Arab Innovation Network Annual Conference (AINAC):**
A dynamic event where young talent tackles real-world challenges, with top ideas rewarded through exciting opportunities
- **AZZA:** – Advancing women's leadership
- **Scholarship for Excellence in Education and Development (SEED):** A scholarship designed to empower students by funding their education
- **WeConnect:** – Bridging students and industry professionals
- **Student Societies** :– Fostering leadership at the grassroots level
Together, let's cultivate the next generation of innovators and leaders.

Becoming an AIN Partner & Sponsor

Become a sponsor by selecting your impact area and contribution level to help shape future leaders.

Impact Areas

1. Value Sponsor

Support one or more of AIN's flagship programs that empower youth:

Challenge Sponsorship:

Offer future leaders a real-world problem to solve and reward them with unique career opportunities. This creates a win-win scenario. The process of proposing a challenge may include three steps as following:

Introduce the challenge participants to the company and product/service by offering a tour

Present a real-problem for participants to solve

Select the best solution and reward at least one participant with a professional opportunity such as internship, job or scholarship

■ EmpowerHer Sponsorship:

Champion women's leadership by helping women develop the skills they need to thrive and build sustainable livelihoods for themselves and their families.

■ Conference Sponsorship (AINAC):

Sponsor activities like tours, exhibitions, workshops, or student societies at our annual conference to foster engagement and networking

2. Education Sponsor

Enable high-potential students with strong academic and social impact to continue their education by funding scholarships and learning opportunities.

3. AIN Leaders Sponsor

Support the volunteer-run backbone of AIN by sponsoring leadership development programs for volunteers. Help them acquire skills, deliver impactful programs, and drive long-term change.

“My journey with the Arab Innovation Network (AIN) began in 2016, offering me invaluable opportunities to develop essential skills, connect with diverse professionals, and showcase the creativity and potential of Arab youth. Representing the region globally in Qatar was a key milestone. AIN has shaped my growth, enabling me to refine my expertise, mentor others, and contribute to impactful initiatives.”

Laith Hamad-Engineer and specialist researcher / Qatar Mobility Innovati-
Competitor in the Innovation Spaces AINAC 2016
Amman- Jordan

“In 2014, as an AINAC winner, I was sponsored to attend the Enterprisers program at the University of Cambridge. This prestigious program was my first professional training in entrepreneurship, launching me on a lifelong journey of innovation management and continuous development.”

Hussein Sleiman, Founder, CEO at Find A Nurse
DMZ Tech Start-up Challenge - AINAC 2018
Beirut - Lebanon

“My participation in Arab Innovation Network Conference and the challenges that were held through it has contributed a lot for my professional and personal life.

The conference was not conventional in its organization and tools; it truly lived up to its name in a practical way, and the elements of innovation and creativity were present in every detail.”
